Eurol Safe Clean Brake

Powerful, safer brake cleaner

Description:

Eurol Safe Clean Brake is a special brake cleaner for fast and effective degreasing and cleaning of brakes, brake lines, brake discs, engine components, contact points, spark plugs, chains and metals. Because of the unique composition, the product is a lot safer in use compared to conventional brake cleaners based on ethanol, acetone and/or petroleum ether.

Instructions for use:

- Spray the cleaner onto the pollution and leave to work
- Wipe the pollution off with a clean cloth or brush and repeat if necessary
- Do not spray on hot or warm parts/surfaces
- On plastic or painted parts, first try on a small and inconspicuous area

Eurol Safe Clean Brake has the following characteristics:

- Practically odourless
- Safer and economical in use
- Does not contain harmful ethanol, acetone and/or petroleum ether
- Does not contain recycled solvents so no risk of harmful pollutants
- Less flammable because of high flash point.
- Powerful cleaning/degreasing function

Physical properties:

Density at 20°C	0.778 kg/l	ASTM D 1298
